TO: John Bohunsky

FROM Dave Dennis

SUBJECT: Chem Met Services

We are still withholding the license for Chem-Met Services because of reports from City of Detroit. I have been advised that a meeting is being planned to discuss this matter, but have had no word as to date.

We are going to have to either deny or issue the license soon and, therefore, necessarily have to schedule a meeting ourselves if one is not forthcoming.

Wayne advised me several days ago that you had some dates under consideration. We would like to know what you have in mind as soon as possible to avoid scheduling conflicts.
